SKILLS

Technical Skills:- C#, Java, JavaScript, TypeScript, Angular, APIs, HTML5, CSS3, Bootstrap, MySQL, SQL Firebase, Postman, .NET Core, ADO.NET, Entity Framework, Dapper
Tools:- Version control systems, GitLab, Git, GitHub, MySQL Workbench, Eclipse, Visual Studio, VS Code, Agile Methodologies (Scrum/Kanban)
Soft Skills:- Communication, Teamwork, Leadership, Problem Solving

EXPERIENCE

Software Engineer   Feb 2023 – Present
Mind IT Systems Pvt. Ltd., Delhi, India

- Developed and maintained enterprise-grade web applications using Angular 15–19 and .NET Core, resulting in improved system reliability and performance across multiple client projects.
- Collaborated with designers and backend developers to implement responsive UI components and RESTful API integrations for HRMS and ERP solutions.
- Refactored and optimized front-end codebase, leveraging lazy loading, modular architecture, and state management to reduce load times by up to 30%.
- Ensured cross-browser compatibility and mobile responsiveness, enhancing accessibility and user satisfaction across platforms.
- Participated in Agile ceremonies, managed tasks via GitHub branching strategies, and contributed to code reviews and bug resolution for timely sprint deliveries.

PROJECTS

Interne 2.0 – HR Management System
Client: Mynd Solutions Pvt. Ltd.

- Developed a scalable HRMS web and mobile platform with modules like onboarding, attendance, leave, calendar, and event management.
- Implemented role-based access (Super Admin, Admin, Manager, Employee) with tailored dashboards, modular configuration, and secure data handling.
- Translated Figma designs into responsive Angular components, integrated RESTful .NET Core APIs, and ensured performance using MySQL backend. **(Tech Stack: Angular, TypeScript, .NET Core, MySQL)**

Sujata Product Strategy Tool
Client: Sujata Appliances

- Built an enterprise web application for product and labor cost estimation, balance sheet generation, and workforce planning for manufacturing operations.
- Enabled multi-tier margin configuration (manufacturer, distributor, retailer, wholesaler) and generated year-wise and month-wise financial reports.
- Designed interactive dashboards with Material UI and PrimeNG, enhancing usability and decision-making efficiency across modules. **(Tech Stack: Angular, TypeScript, .NET Core, MySQL)**

Inventory Management System
Client: Green Planet

- Built a robust inventory management system to track products, generate barcodes, and export sales reports in Excel.
- Developed and maintained RESTful APIs, modified stored procedures, and resolved backend bugs to ensure data consistency and application reliability.
- Refactored legacy code for performance optimization and deployed the system with GitLab CI/CD pipelines. **(Tech Stack: .NET Core, MySQL)**

EDUCATION

Bachelor of Technology - Computer Science & Engineering   July 2018 – June 2022
Visvesvaraya Technological University, Bangalore, India   CGPA: 7.3

ACHIEVEMENTS

- **Mastering Angular + Angular 17 + Interview + E-Commerce App**   *Udemy*
  Gained proficiency in Angular16, Angular 17 and best practices for building dynamic applications.   *Jan 2024*
- **Asp.Net Core 6 (.NET 6) — True Ultimate Guide**   *Udemy*
  Completed in-depth course on .NET 6, covering key concepts such as building APIs, DI, middleware.   *July 2023*
